

Coy Mother Nature teases farmers with Thursday rainfall

Mother Nature teased Medina County farmers last Thursday with about an inch of rain; about half what was needed to break the drought. Some farmers who got over

an inch of rainfall may decide to plant, but most have indicated they'll wait for more moisture. One seed dealer in Hondo

said that some farmers who had their fields bedded may knock the rows down and plant in the furrow. However, he said, only a few farmers

would be included; the majority will wait for additional rainfall.

A Medina County agricultural specialist said most

farmers told him their fields were moist down to about two or three inches. The soil, they say, is dry from there down to about eight or nine

inches.

"If they plant now," the specialist said, "the seed will be in a dry area."

"We need another inch of

rain. If it comes in the next week to 10 days, the farmers could plant.

"A two-inch rain would be ideal, though," he said.

MUSEUM NOTES

The Monday night (March 8) meeting of the Museum Board is open to everyone, including board members. . . Much of the discussion will center around activities for Museum Day on May 1. . . Thanks to the efforts of several people, Sherrille Stroud of Devine, Yancey Russell of Natalia and John Wentz of Hondo the ol' Cowpokes cartoonist Ace Reid is going to visit Museum Day. . . and he might even bring his buddy Hondo Crouch to help him put on a show. . . antiques, old collector items and anything else that will sell are needed for the auction that day.

Say, men, will you join us in growing mustaches for Museum Day! I know Elmo Pope, Fred Bader, Bobby Nester and Chuck Hackebiel are ahead of us, but maybe we can grow enough to keep from getting fined. Jack Gruber and Tommy Hollmig say they will start if everyone else will. How about it?

CHAMBER SEEKS MEMBERS

Harry Filleman at the Chamber of Commerce was telling me a little story the other day about re-newal of membership. It seems the Hondo CoC is a member of the Texas Tourist Council. When the annual dues notice came in recently, Harry promptly mailed it back. He received a membership tag with a written note saying: "Thank you--you are the first member to renew."

Are you a member of the Chamber of Commerce? I believe you should be.

The Chamber of Commerce is the one most important organization in any town, no matter what size. It is the only organization wholly dedicated to promoting the town. Without a Chamber of Commerce as a focal point, any promotion of Hondo will be on a fragmental basis.

Thus, it is difficult for me to understand why so many business people and other individuals are not actively working inside the Chamber structure. Especially puzzling is the fact that so many young businessmen are on the outside. This is their town and it will be their town long after the old fogies like myself are gone and forgotten. Now is the time to get in there and work so that in a few years they can take pride in telling their children, or anybody else who will listen, "I helped get our town to where it is today."

If you don't work now I'll guarantee that you will have to assume the responsibility for whatever shape the town will be in a few years from now.

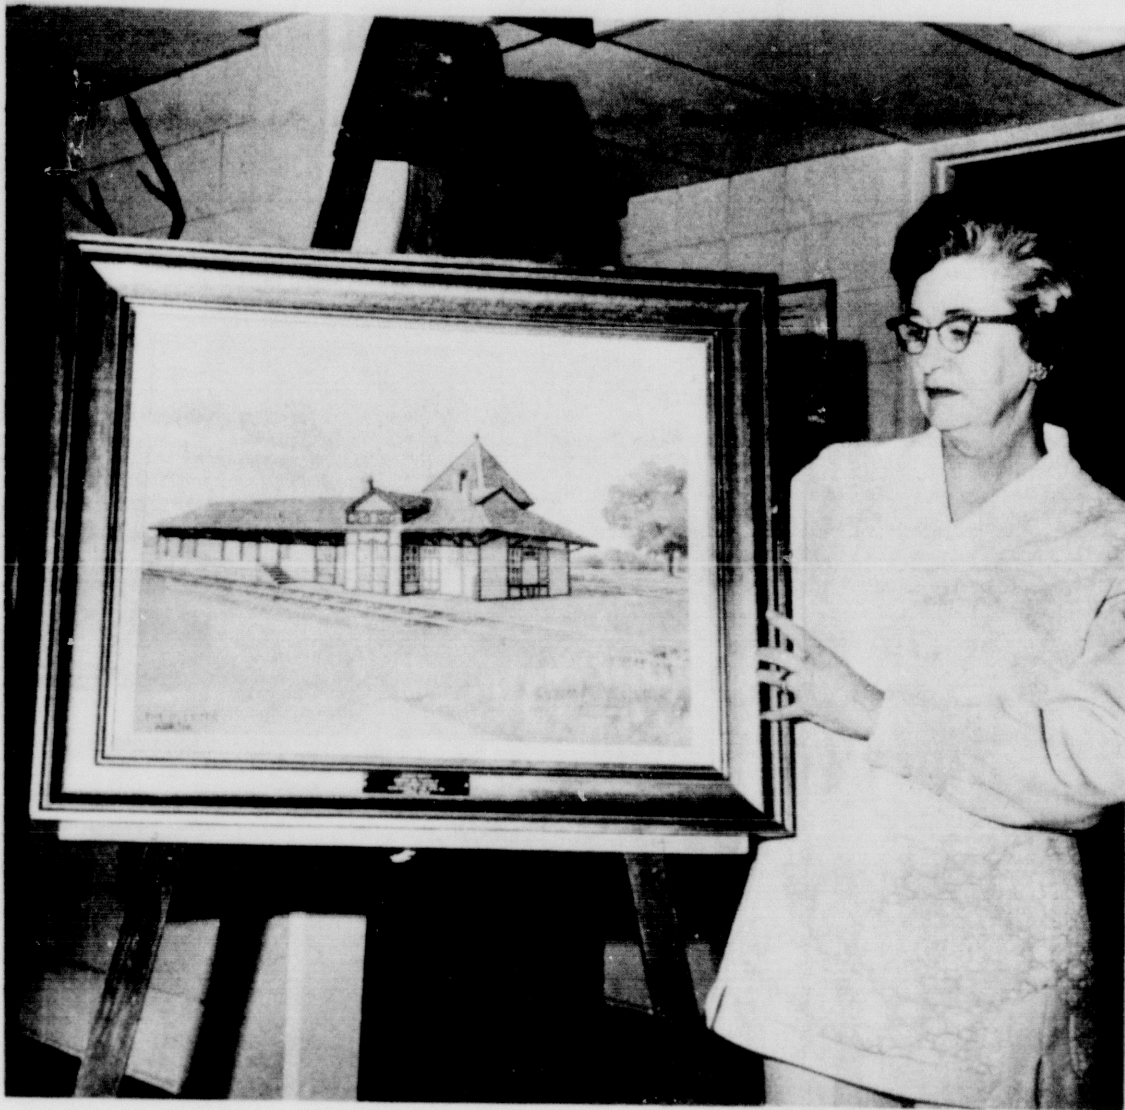

ELECTION ACTIVITY LIGHT

Unless a last minute flurry of filing boosted the candidates for city and school offices, the elections don't promise too much activity.

The city election will give the most activity since there are candidates for all positions, but as this is being written the school board candidates have no opposition.

This is bad. Certainly not because the candidates who have filed are not worthy men. But because no elected office in this country should go to any candidate by default. We have a fine school system, but no system is perfect. And ours has areas that could stand improvement if the needs of all the students are to be met. And I am speaking of the needs that our complex, technical world now requires, no, demands,

Artist views Museum gift

Eva Huesser of Austin, who painted the "Hondo Depot", visited in town last week and went by the City Hall to view the painting which she has given to the Medina County Museum. Mrs. Huesser, who lived in Hondo until 1945, began the painting from a picture in the Anvil Herald. For research she made two trips to Hondo to study all details and took a roll of color film for reference. She also

picked chips of wood that had fallen from the walls and windows to get the true color composition. Mrs. Huesser does her paintings at the Texas School of Fine Arts, Inc. in Austin under the direction of a noted artist Charles Berkeley Normann. She had attended the art college less than a year when she began this painting. The Hondo Depot will also be on a plate which the Museum has ordered for resale.

All city candidates face poll opposition

Voters will have to make a choice of candidates for mayor and both city council places at the April 3 city election. By yesterday (Wednesday) noon, there were two candi-

dates for mayor, three for Place 1 on the council, and two for Place 2.

Mayor George Brucks will be opposed by Sarge Ney, Jr. who ran second in a three-man race last spring to fill the vacancy created by Jerome Decker's resignation. Brucks operates an insurance agency, and Ney is a building contractor.

Incumbent councilman Andrew Patterson faces two challengers for Place 1; Thomas Santos, part owner of an electrical firm, and Mrs. Linda Weaver, a Medina Memorial Hospital nurse.

Incumbent Albert Vance had not filed for re-election to Place 2 by 11 a. m. yesterday, and was not expected to

do so.

Former Councilman Gip Chapman, associated with a local grain company, and Jesse Rodriguez, a Kelly Field employee, have filed for Place 2.

In the Hondo Independent School District trustee election to be held the same day, no opposition candidates had filed by 11 a. m. yesterday for either of the three places to be filled.

Place 6 incumbent Jack Been and Place 7, incumbent Dr. Judge Sandusky were unopposed. Lloyd Hardt was the only candidate to have filed for Place 5. The incumbent for that place, Tom Kuykendall, is not seeking re-election.

Salvation Army fund drive begins

Rev. Dick Lowry will be chairman of the 1971 finance campaign for the local Salvation Army Service Unit Committee in Hondo. Chairman Ralph Hauger said that Lowry plans to have 12 captains and 60 workers to contact friends of the Salvation Army in Hondo.

James E. Reid, Celestino

Cuellar, Ralph Hauger and Bill Green have already volunteered to be captains. Campaign kick-off will be at 10 a. m. Tuesday, March 9, in the council chambers of the Municipal Building.

Hauger said proceeds of the campaign are used to finance the local program and assist with statewide welfare, youth and disaster programs of the Salvation Army.

The Hondo Service Unit is one of the oldest in Texas. Vice-Chairman O. A. Fly and Bill Crow were among the organizers over 15 years ago. Since that time the local committee has helped hundreds of local residents who were in need.

"When a campaign worker calls for your gift, please be as generous as you can," says Hauger.

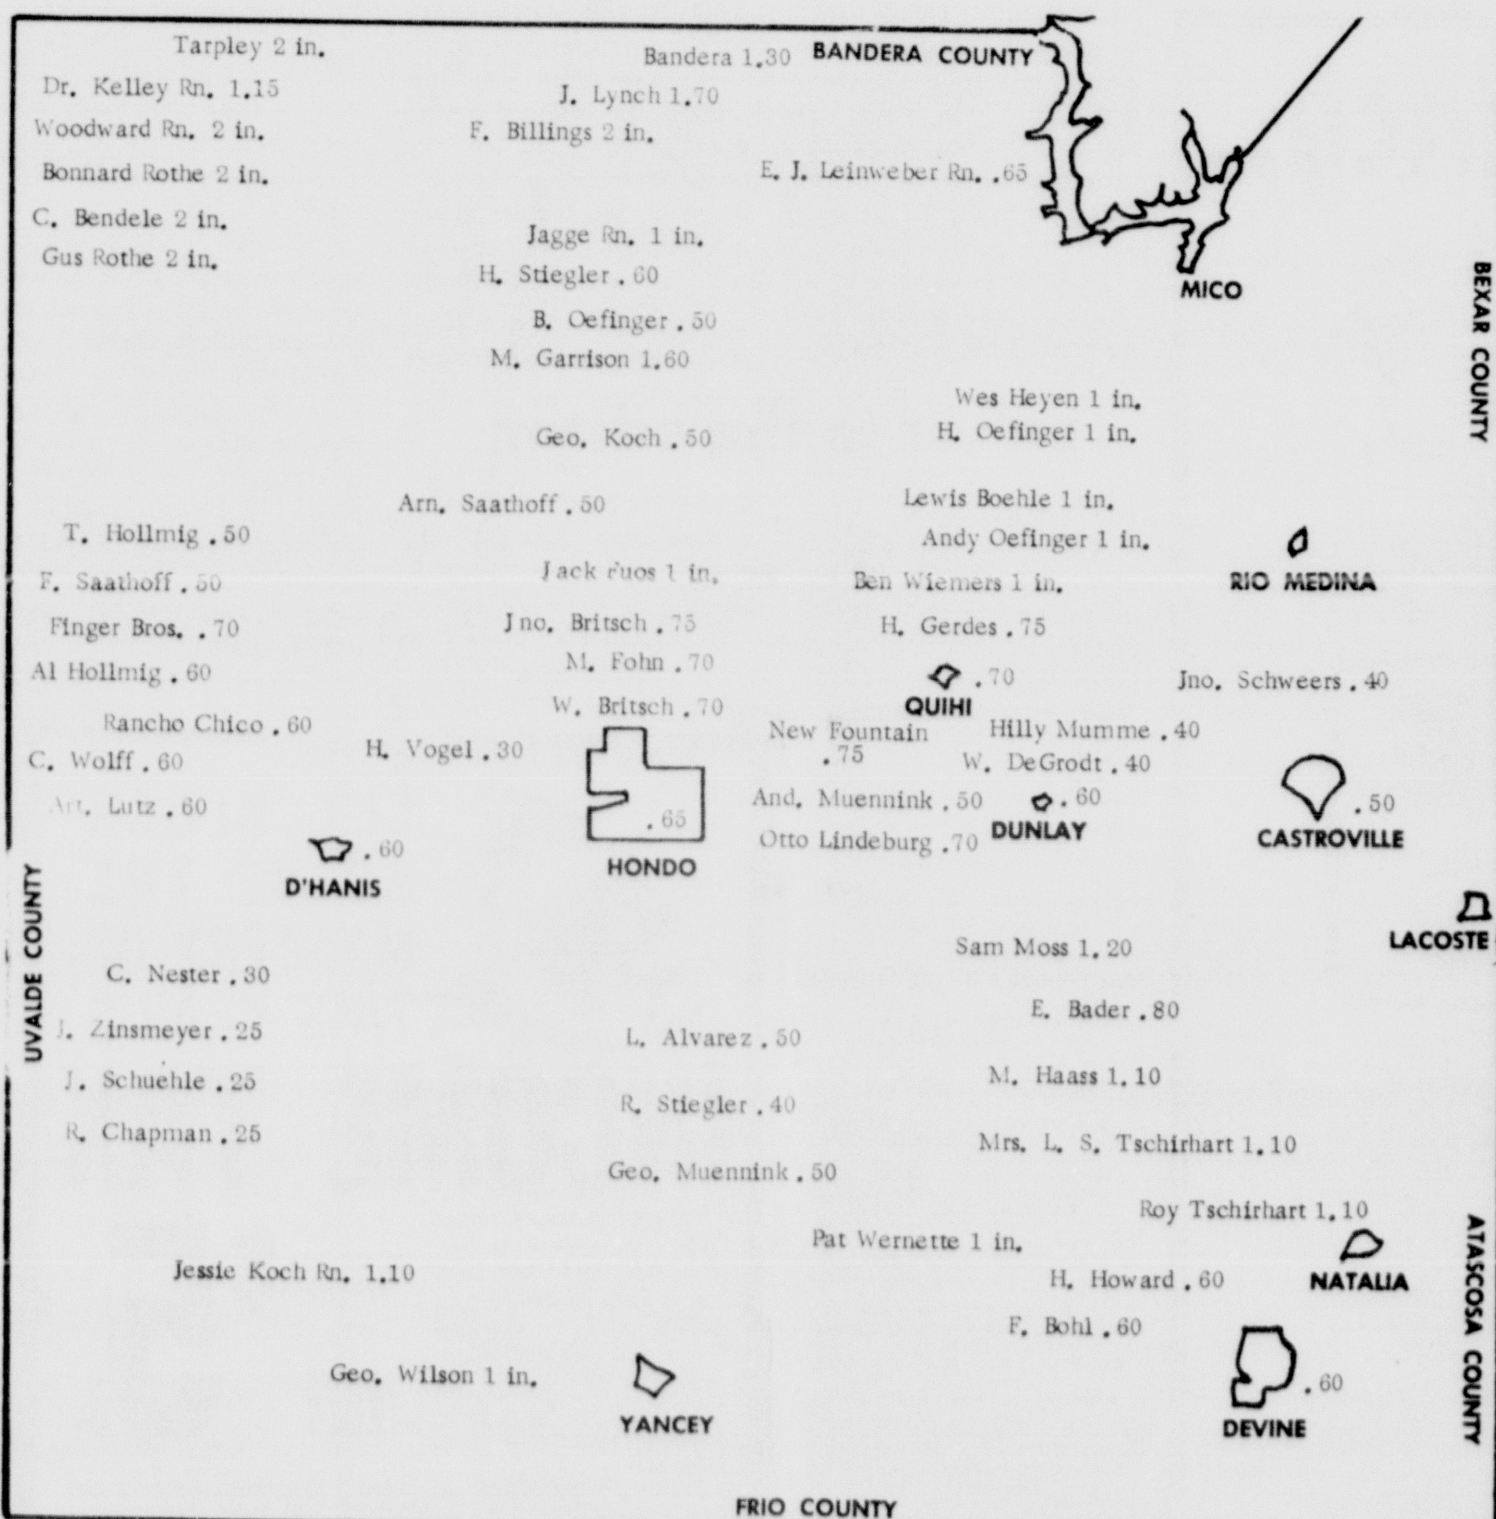

Easter Seal drive starts

Easter Seal Appeal letters are to be delivered this week in Medina County, according to Henry Martin Finger, Easter Seal representative of the Easter Seal Society for Crippled Children and Adults of Texas. As representative, Finger serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as treasurer of the Easter Seal Appeal in Medina

County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Easter Seal Campaign will run through Easter Sunday, April 11.

Conservation news

Nine county projects entered in conservation awards program

Nine Medina County projects have been entered in the 26th annual Texas Conservation Awards program. State winners will be honored May 1 at a banquet at Texas Christian University in Fort Worth.

Projects entered by the Medina Valley Soil and Water Conservation District include:

Bonnard Rothe, for Outstanding Conservation Farmer-Rancher; Fred Yanta, Come-Back Farmer; Charles Hood, Wildlife Conservationist; Mrs. Jerry Howard, Outstanding Homemaker and D'Hanis Lions Club, Outstanding Civic Group; and Michael Saathoff, Outstanding Conservation Essay.

Also, the conservation district as a whole was entered along with entries for Radio Station KRME and the Hondo Anvil Herald for their contributions to conservation.

District winners of the essay contest in addition to Saathoff included Wayne Stein, second; Nick Turner, third; and Willie Cousa, fourth, all of Hondo High School. Fifth

place went to Peggy Blume of Medina Valley High School.

Farmers and ranchers in the Medina Valley Soil Conservation District are awaiting moisture to sprig Coastal bermudagrass.

Harvey Shultz of Devine has his land ready and will sprig as soon as adequate moisture is available.

Franklin Muennink of Hondo constructed a new pond on land he cleared of all brush and undesirable trees. The area above the pond will be sprigged to Coastal bermudagrass to stop erosion and movement of loose soil. He has already sprigged Coastal on irrigated land that was pre-irrigated.

Muennink is also raising caged large mouth bass in his irrigation reservoir. The bass, about 200 in number, were placed in the cage in July, 1970, and were fingerlings at that time. They now average about 1-3/4 pounds. One great advantage is that Muennink can get a fresh mess of fish at will.

The Soil Conservation Service has complete information on this method of raising channel and bass fish, and will be glad to assist any interested party if they will come by or call our office.

Poerner's corner

Bill would allow hiring of special investigators

By John Poerner, State Representative, District No. 49

PROTECTIONS FOR COUNTY OFFICIALS & EMPLOYEES

I introduced H.B. 687 and H.B. 688 this week. H.B. 687 was assigned to the Criminal Jurisprudence Committee and H.B. 688 was assigned to the Judiciary Committee. H.B. 687 relates to the authority of the Commissioners Court of counties between 11,200 and 11,400 (Zavala County) to appoint a special investigator to serve under the direction of the County Attorney. This will be permissive legislation and the investigator shall receive an annual salary not to exceed \$8,000 and shall have all the authority of a Peace Officer of this State. Much of our problems of today cannot be met with existing limitations placed on the County Attorney and I have been convinced that the Commissioners Court must have this option to assist the County Attorney in the performance of his duty.

H.B. 688 is a state-wide bill that would provide all county officials and employ-

ees to have legal representation by the District Attorney or County Attorney, or both, in certain suits against the official or employee and authorizing the Commissioners Court (again permissive) to pay for additional counsel. This legal representation is only possible where the official or the employee of the County is being sued in the official performance of his public duty.

AERIAL SPRAYING -- The increased use of aerial application of agricultural chemicals and the complaints by people over the state against the improper use of this application has caused Representative Cobb and Representative Wayne to introduce H.B. 671. This bill would give the Commissioner of Agriculture additional power to regulate the use of chemicals and to guide the proper use of them in areas where cotton may be growing, fruit trees being adjacent to farmland, and etc. I have photographs from constituents

in my district showing a complete kill of bee hives, of cotton being defoliated, and of fruit trees being killed. I do not want to hamper the growing of vegetables and the application of chemicals in our area. I just simply want to assist Representative Cobb and Representative Wayne in guiding this legislation so that it will be fair to everyone concerned.

DAYLIGHT SAVINGS TIME -- The State Affairs Committee heard House Bill 237 by Doran of Del Rio, a non-binding referendum on Daylight Savings Time, to be placed before the people; and House Bill 506 by Sanchez and Poerner to exempt the State of Texas from Daylight Savings Time. Both bills were sent to sub-committee and one or both will be reported out of committee within a couple of weeks.

COLLEGE TUITION -- Last week's news release reflected Governor Smith's proposal to increase college tuition from \$50 to \$125. I have had some correspondence asking that the increase be reduced to allow students to properly prepare themselves financially for the increase. Please let me hear from you if you think the \$125 amount is too high or if you think it may be justified at this time.

Letter to the editor

Dear Mr. Lawrence:

I have read your letter of February 18 and the enclosed news clipping which reveals that the U. S. Army is spending \$3 million per year on television time to promote recruiting. To me this seems discriminatory, and I see no reason why one segment of the news media should be

singled out for the purchase of time of Army appeals. I am going to make some inquiries about it.

Sincerely,
O. C. Fisher

of its citizens. I do not contend that these needs will not be met by our school board. Nor do I believe that a long list of candidates would guarantee them. But I do firmly believe that these needs should be discussed openly so that the public can become more knowledgeable about their school system and what it has to offer their children in the way of preparing them to meet the demands of our modern society.

That's all she wrote

by Edna McDade

A personally certified for-instance of one of
the fringe benefits of retirement is being able to
take a full 35 minutes, by wrist watch, to hang
out seven pieces of laundry without feeling guilty
of procrastination, which some factual English
poet warned us "is the thief of time".

The cause of it all was a sunny spring morning
and what some more imaginative poet called "fly-
ing flowers": butterflies. I'd no sooner hung the
first towel than a visiting red-spotted purple beau-
ty tarried long enough to ask, "What's with you,
hanging out towels when there's so much to see
just for the looking?" What could I do but keep
looking?

Suddenly I became aware of clouds of butter-
flies fluttering around a redbud tree that my
neighbor, MYRTLE WILLIAMS, had thoughtfully
planted along our backyard fence where I can
share its beauty.

So intent on their sips of nectar were the but-
terflies that I was able to get within close-up
looking distance without disturbing them. As a
lepidopterist, I do well to spell the word and know
what it means. All I could do was to reach in my
apron pocket for a pencil and a scrap of paper on
which I made hasty notes of color patterns, plan-
ning later identification via reference books.

From three books, courtesy our Hondo Public
Library, I learned that I had seen the majestic
glory of several Monarchs, a Painted Lady, sever-
al Orange and Clouded Yellow Sulphurs (also
called by the common name of Mud Puddle) one
Red Spotted Purple (which I had listed by color
only, not aware that it is so named) and at least
a half-dozen Swallowtails.

Butterflies do more for the soul, I've decided,
than the daily laundry which might do more to
insure domestic tranquility.

According to cotton growers in Lubbock County,
cotton is staging (no fish line pun intended) a
comeback, thanks to the growing demand for hea-
vier fabrics used in work and sports clothes.

Lubbock heads the list of cotton producing
counties but, time was when Medina (much larger
in area if less adapted to cotton) included cotton
among its leading crops. We now have only two
of the state's remaining 1200 active gins — down
from the 1914 total of 4,694 when consumers real-
ly "cottoned" to the product.

If our cotton-pickin' days are now limited to
our selection of clothing and commercial uses, we
can still help our Texas economy by favoring cot-
ton fabrics when we shop.

As for the boll weevil — get along, git along.
Git lost!

PATSY, a second grader at Meyer Elementary,
is the daughter of JESSE and JENNY ACOSTA
and a happy child she is. When she courteously
held a postoffice door open for me as I struggled
through with a heavy package, I thanked her. She
said, "Oh, that's OK. Our teacher says we must
be polite and try to help everyone."

Patsy's teacher is MRS. CRIBBS and I think she
might like to know that one of her pupils is cer-
tainly trying to practice what she is being taught.
And, more power to Mrs. Cribbs!

BRIAN, energetic son of HILMER and CHAR-
LOTTE LUTZ, is among the four year olds (as of
Jan. 11) who is counting ahead to being five.
When he aspired to ownership of a tempting red
truck in one of our local stores, his mother remind-
ed him that he had received several from Santa
and on his very recent birthday.

"But that was a LONG time ago when I was
FOUR", he protested in no uncertain tones but
without any luck against his mother's firm deci-
sion.

Note to Brian: The months that now seem so
interminable between birthdays will begin to de-
velop jet-propelled speed about 50 years from
now, says a voice of experience.

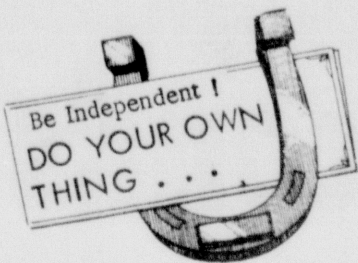

It was a pleasant surprise for me when I found
out (during our participation in a church study of
"The Americas in Transition") that FRANKIE FAS-
LER speaks Portuguese which she learned during
her years of residence in Sao Paulo, Brazil.

During WWII years, I took a "crash" course at
St. Mary's U to qualify as translator in the Office
of Censorship. Now Frankie and I are planning
some "brush-up sessions", time permitting.

If my forgetter hasn't completely taken over my
rememberer, maybe I can still communicate. In
any event, I shall be "muito obrigada" to Frankie
for the opportunity to try "falar em Portugues".

DON'T COUNT ON LUCK!

KRME

Well, hello friends and neighbors. How have you been keeping yourself?

In just a few short months school will be out and the young people will be beating down the paths that offer summer employment. KRME may be in the market for one or two part-time jocks who show promise.

Speaking of excitement around the corner, Pearsall will be celebrating its centennial in May. In keeping with the tradition of men wearing beards during the festivities "Yours Truly" has joined in and don't think it is easy to keep. I must apologize to the listeners who have dropped by from time to time and have seen the extended nubs. I'm hoping in a couple of weeks it will shape up.

On the music scene, we would like to familiarize you with a female artist that is making waves in the country field.

Leona Helton Williams, born in 1943 in Vienna, Missouri, stands 5 feet-4-1/2 inches at 125 pounds (not bad). Leona has our number 17 song on the TOP 20 Survey. Many

stations in Texas are saluting this young lady by declaring March as Leona Williams Month in Texas and KRME is following suit.

For you Ronnie Mason fans, you will probably be happy to find out that Ronnie and the Mason Knights will be featured every Saturday afternoon immediately following the headlines at 5 for 15 minutes of country music and country fun. Ron will be having guests appearing on his show, also a devotional, plus a request corner. To audition for the show or to request a particular song, send your letters to the Ronnie Mason Show, KRME Radio, P.O. Box 447, Hondo, Texas, 78861. Please enclose a self-addressed stamped envelope if you are writing about an audition.

It's almost show time, so I'll meet you back on the 1460 spot for country fun. Remember our new sign on time 6:45 a.m. and sign off at 6:45 p.m. for the month of March.

"There are some who cause happiness wherever they go, others whenever they go."

The World's Telephones -- Hondo has it's share

The World: 255,200,000; Pitcairn Island: 17.

That's not a lopsided football score, but rather a census of the world's telephones for 1969. Pitcairn Island achieved the dubious honor for having the fewest number of telephones on record.

"By contrast, Hondo recorded 2,478 telephones which is more than all the telephones in the country of British Honduras," said Harold Johnson, manager for Southwestern Bell Telephone Company.

Whether a tiny South Pacific island or a midwestern American city, each telephone user played an important role in boosting telephone growth in the world.

These figures are based on 1969 statistics presented in the American Telephone and Telegraph booklet, "The World's Telephones." They are the most recent statistics available since it takes about a year to collect information from all countries in the world.

According to the booklet, the United States leads all countries with 114,798,000 telephones. Runners up are Japan and the United Kingdom, with 23,131,688 and 13,947,000 respectively.

"We Americans have set another record -- that of being the chattiest nation in the world," said Johnson. "Each man, woman and child in America carried on an average of 745 telephone conversations during the year which is more than the combined average of our counterparts in Mexico, Brazil, Chile, Greece and the United Kingdom," he said.

Johnson pointed out that even though countries like Greece, Brazil, Hong Kong and Korea lag behind the U. S. in total telephones, their telephone growth rate is more than double the 7.3 percent world average.

"It will be a long while before they equal telephone concentration in the U. S. which is one phone for every two people," he said.

Astroworld seeks student employees

Beginning Monday, March 1, 1971, ASTROWORLD, USA, will interview prospective employees for summer work at the 57-acre family entertainment complex located next to the Astrodome in Houston.

"Applicants must be students who are at least 18 years old," according to Astroworld's personnel director, Walter Wells. Applicants who are

presently 17 years old but will celebrate their 18th birthday in 1971 are eligible for consideration.

Positions are available for ride operators, groundskeepers, busboys, guest relation representatives, shop clerks and many more exciting jobs.

"This year Astroworld will offer \$1500 scholarships to 2 of its student employees. The scholarships will be awarded at the end of the summer season," said George Lanier, Astroworld's General manager.

"Working with the public is the best part of the job at Astroworld," says personnel manager, Joan Wofford. "The employees get valuable experience that will help them when they get out of school," according to Miss Wofford.

Interviews will be held at the Astroworld Personnel office, 9001 Kirby in Houston beginning March 1. Hours will be from 9 a.m. to 5 p.m. Monday through Friday and 10 a.m. to 4 p.m. on Saturdays. No appointment is necessary.

Astroworld opens for week-ends on April 17, 1971, and daily operation begins on May 29, 1971.
